

ARIZONA

This poll was conducted by Mason-Dixon Polling & Research, Inc. of Washington, D.C. from September 13 through September 14, 2004. A total of 625 registered Arizona voters were interviewed statewide by telephone. All stated they were likely to vote in the November general election.

Those interviewed were selected by the random variation of the last four digits of telephone numbers. A cross-section of exchanges was utilized in order to ensure an accurate reflection of the state. Quotas were assigned to reflect voter turn-out by county.

The margin for error, according to standards customarily used by statisticians, is no more than plus or minus 4 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if the entire population were sampled. The margin for error is higher for any subgroup, such as a gender or regional grouping.

STATEWIDE NAME RECOGNITION

Do you recognize the name _____?
 (IF YES) Do you have a favorable, unfavorable or neutral opinion of _____?

	<u>RECOGNIZE FAVORABLE</u>	<u>RECOGNIZE UNFAVORABLE</u>	<u>RECOGNIZE NEUTRAL</u>	<u>DON'T RECOGNIZE</u>
